

July 6 call w/ State re Triangle Lake pesticide issue  
- Oregon State University, State agencies, EPA, ATSDR

Debrief from July 5 meeting = ok to move forward  
with investigation

= if they don't find pesticides in water they'll do a survey  
Frisby Office will reach out to tuber producers ahead of  
the community meeting to secure their cooperation  
"Stakeholder Meetings"

ATSDR will fund ~~know~~ biomonitoring study & will develop  
the methodology / protocol

State:

"This is a year long multi media look at this issue".

Public meeting =

Survey the attendees about their exposure pathways?

what they eat (domestic vs collected, farmers mkt, etc)

Jae said they'll conduct interviews

Public meeting

- agree on talking points

- send to Bruce - comments & key messages

- Gril has sent preliminary list of talking points  
to folks in governor's office

Tuesday 12 → call about public meeting
